

Skanör Falsterbo Montessori School

Skanör Falsterbo Montessori School is a modern independent school established in 2002. We have approximately 230 pupils from kindergarten to grade 9. We have a strong connection between our pupils, parents and teachers and the school prides itself on having a “family” atmosphere at our school. Pupils of different ages work together and older pupils help the younger ones.

Our school vision is that “We are educating tomorrow’s global citizens.” In order to achieve this, a strong focus is placed on internationalism, cross-cultural communication and citizenship. Each year, the school participates in various e-Twinning projects that allow meetings and cooperation with people from different cultures and socio-economic backgrounds. The school runs its projects by reinforcing its four core values: Dare to Try, Take Responsibility, Focus on Knowledge and Be Kind.

Skanör-Falsterbo is famous in Sweden for its beautiful beaches, its small seaside village atmosphere and for its proximity to Copenhagen and Malmö.
